# About us

**INNOVATION** *Fontikulus* was established in 2016 by a group of experienced engineers with special expertise & knowledge in water sector.

*Fontikulus* is originated from the latin word "fonticulus" which means spring or small fountain. our vision is to reach safe drinking water at every hand at an affordable cost.

**RELIABILITY** We are manufacturer of Waste Water recycling plants , which is an excellent solution for zero water discharge as per Pollution Control Board.

We are also manufacturing tailor made Effluent Treatment plants for industries , R.O water plants for offices , hospitals , & drinking water plants , low cost water treatment plants for rural area(s) & slum area(s).

Apart from this , we conduct Water Sustainability Studies for PSUs & Reputed organizations who wants to become water independent. Rain water Harvesting is also done by *Fontikulus*.

**EXPERIENCE** Large spectrum of experience of team in the field of water treatment along with application of cutting edge technology and innovation gives us edge over others.

Application of low cost Arsenic & Fluoride removal technology especially with the technical support from the Department of civil engineering, IEST, Shibpur has enabled us to produce drinking water at very nominal cost so that local community, Gram Panchayets, co-operative societies can procure and maintain plant on their own and get safe drinking water.

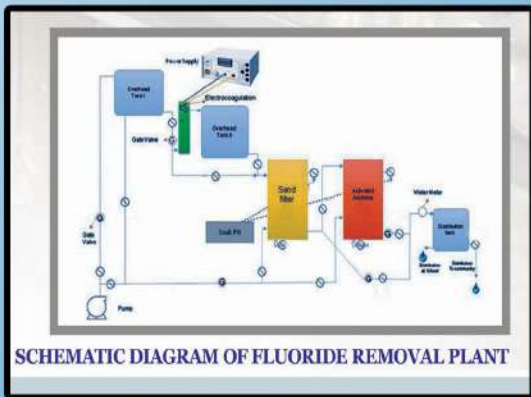

## **BENEFITS OF FONTIKULUS**

- BENEFITS**
- *Fontikulus* is into the business of turkey project of water, wastewater, effluent treatment and zero liquid discharge plant
  - You can partner with *Fontikulus* at any stage of turnkey project e.g. design & engineering, supply of materials, installation & commissioning
  - We also provide engineering services i.e. design, engineering & supervision of erection and commissioning for large turnkey projects
  - We are also proficient in Water sustainability studies and Rain Water Harvesting

## OUR PRODUCTS

- WATER TREATMENT PLANT
- EFFLUENT TREATMENT PLANT
- SEWAGE TREATMENT PLANT
- ARSENIC REMOVAL PLANT
- FLUORIDE REMOVAL PLANT
- IRON REMOVAL PLANT
- SOFTENING PLANT
- REVERSE OSMOSIS PLANT
- COMMUNITY DRINKING WATER PLANT
- WATER VENDING MACHINE
- SOLAR OPERATED WATER VENDING MACHINE .
